Clodagh and Oakworks create a luxurious new collection

The growing biophilic design movement understands that humans possess an innate desire to connect with nature. Clodagh's new collection for Oakworks is offered in two biophilic patterns. Both patterns are designed to enhance the calming, relaxing environment offered in the best spa experiences.

Graphic and pointillist, **Canopy** incorporates the rustic bling Clodagh is renowned for. Inspired by a walk under a canopy of trees, this design is the result of the abstracting of patterns and shadows.

Where Canopy looks up, **Leaf** turns the gaze down to meditate on the pattern of autumn's fallen leaves on the forest floor.
