FEATURES/OPTIONS

ABC SYSTEM

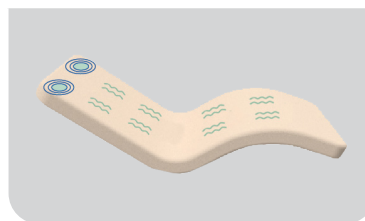

Oakworks Patented ABC system allows you to create the perfect level of support for each client, taking pressure off their breasts and tension out of their back. The system also raises the pad above level, making it a great head support for face up positions, and can be used for stretches also.

Incredible breast comfort
Lower to lessen pressure

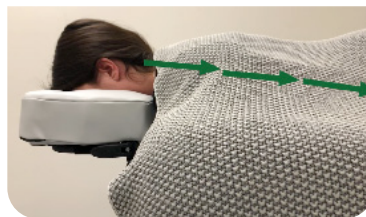

Electric adjustments
Large adjustment range

SO•VI

Optional SoVi vibroacoustic system is designed to deliver all the latest forms of healing modalities via a very flexible integrated delivery system.

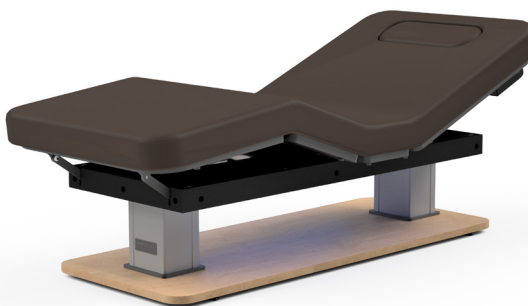

TILT

The tilt function that allows you to lower sinus pressure, making it possible for people to breathe through their nose when lying face down.

FUZION HEAT

Optional Fuzion heating system is embedded in the foam, creating a more even heat.
